NUMB. 5080

WEDNESDAY, JULY 31, 1745.

Yesterday arriv'd a Mail from Holland.

Petersburgh, July 10.

IT is very certain that his Imperial Highneſs has remitted large Sums of Money into Germany, to diſcharge the Debts contracted by his Father. It is ſomewhat ſtrange that M. Puſchin is appointed Ambaſſador to Sweden; and we conceive from thence, there is more in it than Ceremony, being eſteemed one of the deepeſt and moſt poli- Heads in this Empire. The Imperial Prince has given him a very complaiſant Letter, and ſent him the Order of St. Anne of Holſtein. Some People will have it, that this new Treaty contains a kind of Family Compact, and is particularly calculated to maintain the new Regulations for ſupporting the Power of that Houſe in the North. We the rather give Credit to this, from the Circumſtance of M. de Holſtein's Application immediately, on the Part of the King of Denmark, to adjuſt the Differences between the Houſes. It is however believed, that the Conſequence of this Treaty will not diſcloſe itſelf by its Effect.

Naples, July 13. The Tribunal for inſpecting the Conduct of Malecontents, has pronounced lately ſeveral Sentences againſt ſuch, as there appeared any Evidence to prove, were involved in the late Deſign of favouring the Auſtrian Invaſion by a Domeſtick Inſurrection. The Court, from ſome Advices lately received from Florence, begin to be extremely uneaſy about the Conduct of that Republick; which, beſides the Army of Obſervation lately ſet on Foot, is preparing to raiſe a Corps of Auxiliaries, which it is apprehended are to act in Lombardy, in Conjunction with the Auſtrians and Sardinians. Our Fears of the Engliſh alſo begin to revive; ſince it is extremely evident, that ſince the Declaration of the State of Genoa, they pay much leſs Reſpect to our Flag than they did before.

Alexandria, July 20. The Troops of the Infant Don Philip and thoſe of the Count de Gages, are on the Point of joining in the Plain between the Rivers Borman and Orda; and, on the other Hand, the Auſtrian and Piedmonteſe Troops are likewiſe on the Point of joining; and it is ſaid his Sardinian Majeſty will fix his Head Quarters at Monte Caſtallo. According to all Appearance, the Deſign of the Enemy ſeems to be the beſieging this City; but, however, we do not neglect the neceſſary Precautions for the Safety of Tortona; ſince it is well known, that the Count de Gages ſeldom executes any great Deſign without pretending to have another in his Eye, and ſometimes more than one. The King, our Sovereign, has diſpatched a Perſon of Diſtinction to Venice, to demand of that Republick the Execution of the Treaty lately concluded, by which he is obliged to march a Body of Auxiliaries, in caſe the Genoeſe declared againſt us.

Vienna, July 24. The Court receiv'd, the Day before Yeſterday, an Expreſs from Hanover, upon which a grand Council of State was held; but the Reſolutions taken therein are kept extremely ſecret. The Miniſter of Genoa having notified the Meaſures taken by that State, has been forbid the Court. We learn by Letters from the Upper Sileſia, that the Pruſſian Army being increas'd to 15,000 Men, had oblig'd the Inſurgents to retire to Jaggendorff, with the Loſs of about 200 Men. The Town of Coſel ſurrender'd on the 19th, in which there was only one Battalion, which was made Priſoners of War.

Nuremberg, July 29. According to our laſt Advices from Bohemia, the Combined Army remained in the ſame Poſition on the 24th; but they had thought fit to recall ſeveral Detachments they had made towards Moravia, in order to obſerve the Motions of the Pruſſians, and to prevent their making any Attempt on Prague; but, at preſent, their Scheme ſeems to be the bombarding Koningſgratz.

Antwerp, Auguſt 2. There arrive here daily ſeveral Waggons laden with Baggage, and other Effects; as alſo Veſſels laden with Ammunition. On the other Side the Scheld there appear, from time to time, ſeveral Parties of French Troops, who have laid under Contribution all the Flat Country, to the very Frontiers of Holland, and that without Mercy. We learn from Oſtend that they have pierc'd the Dikes, and that by the Help of the Inundation, that Place is thought out of Danger.

Hague, Auguſt 3. According to Advices from the Army in the Netherlands, of Yeſterday, it remained in its old Poſt; and that, in order to extend its Front the farther, it was now encamped in one Line inſtead of two, ſo that the Right Wing reached to Vilvorde. The Gariſon of Namur has ſent out a Party, which has had the good Fortune to ſurpriſe, and burn a conſiderable Magazine of Forage the French had at Thyange. Prince Cherbatow, and Baron Solenthal, both arrived here Yeſterday from England, and ſet out this Morning for Hanover; as did M. Fogliani a few Days ago for Naples.

Hague, Auguſt 6. By the Letters arrived to Day from the Combined Army in the Low Countries, it had made no Motion of Conſequence, ſtill lining the Canal of Bruſſels; but his Royal Highneſs the Duke had tranſported his Head Quarters to Vilvorde. The French King was returned from Bruges, and joined his main Army at Aloſt on the 4th. His Return to Verſailles is ſaid to be poſtponed. M. Pallavicini is ſoon expected here as Miniſter from the Republick of Genoa.

HOME PORTS.

Arriv'd the Pool Man of War from Hull, the Granada Bomb from a Cruize, and the Swift Privateer, Captain Hudſon; the Bridget, Norton, from Monſerat, and the Dragon, Ryan, from Carolina, both laſt from Plymouth; the Anna Catharina, Graves, from St. Euſtatia for Holland. SCHWANBERG's LIQUID-SHELL, To be DEPENDED UPON in the

GRAVEL *and* STONE

THE Rev. Dr. HALES, and others, demonſtrated by various Experiments, That the Virtues of Mrs. Stevens's Medicine for the GRAVEL and STONE depend upon the SALTS of Lime in the Alkaline Body, calcin'd Shells, but its enormous Doſe renders it ſo nauſeous that it is almoſt impoſſible to take it in a manner ſufficient to anſwer any good End. This, then, will info m ſuch Persons who are afflicted with the GRAVEL and Stone, that M. SCHWANBERG, a learned and ingenious Gentleman, verſed in the moſt abſtruſe Operations of Chymiſtry, has a Method of Liquifying calcin'd Shells, ſo as to become like Rock-water, yet not corroſive. They give almoſt immediate Relief in the moſt violent Pains of the GRAVEL, and if perſiſted in, will, in time, bid fair for diſſolving a Stone in the Urinary Paſſages, when too large to paſs off otherwiſe. They may be depended on in the Wind-Colic, and all Kinds of Tumultuences; and, where an *Alcali* is wanting, will anſwer the deſired End. A Child may take them in the Month, the Gripes, Fevers, and Uneaſineſſes, which Children are ſubject to, from Acidities, the known Cauſe of moſt of their Diſorders.

*** It is remarkable, That thoſe who take them for the Stone, have a Sediment in their Urine reſembling powder'd Chalk: Now, that this Sediment is a Portion of the Stone diſſolv'd, is evident from an Experiment *in the Power of every one to make*; for, put an human Stone, form'd in the Urinary Paſſages, into a Vial of the LIQUID-SHELL, and it will gradually diſſolve into a White Powder, exactly reſembling that in the Urine of Perſons who take it as a Medicine for the Stone, and this in an Heat not greater than that of the Body, yet at the ſame time, not in the leaſt affect an human Hair put into it; and, which ſurpriſingly will, upon the Affuſion of an Acid, be inſtantly converted into a Snow-white Powder.

To be had of the Proprietor W. Baker, *at his Houſe in* Hellier Court, *near* Katherine-ſtreet *in the* Strand; *and, by his Appointment, of* R. Lee, *Stationer, under the Statuary's, facing* St. Jeants-Inn *in* Fleet ſtreet; *and of* John Newbery, *at the Golden* Ball *in* Caſtle Alley, *near the* Royal Exchange, London; *and at his Printing-Office in* Reading, *at* 1 s. 6 d. *the ſmall Vial.*

The moſt Delightful Fragrant TINCTURE *for the Breath, Teeth and Gums.*

AT once uſing makes the BREATH moſt charmingly fine, ſweet, and pleaſant, the Teeth perfectly white, clean and beautiful, and is the moſt certain Cure for the SCURVY in the GUMS in the World.

It infallibly preſerves the Breath, Teeth and Gums in the utmoſt Beauty and Perfection, if they are no Ways diſorder'd; and if they are, immediately rectifies all their Defects; for the ſame Minute it is uſed it makes the moſt offenſive Breath ſmell incomparably fine and charming, and in a ſhort Time ſo effectually cures, that a diſagreeable Breath will not return.

It inſtantly makes the blackeſt and moſt foul Teeth extremely white and delicately beautiful; infallibly preſerves them from decaying, and thoſe a little decay'd from becoming worſe; abſolutely cures the Scurvy in the Gums, be it ever ſo inveterate, cauſing the Fleſh to grow up to the Teeth again, when almoſt eaten quite away, and aſſuredly faſtens looſe Teeth to Admiration. It is to be uſed but a few Drops at a Time, is exceeding pleaſant, and leaves a very grateful and delectable Flavour in the Mouth.

In a Word, for moſt delightfully performing, and quickly curing an ill-ſcented Breath, for immediately making the blackeſt Teeth moſt excellently white, certainly faſtening them when looſe, effectually preſerving them from rotting or decaying, and infallibly curing the Scurvy in the Gums, it has not its Equal in the Univerſe, as all the Quality and principal Gentry, who uſe it acknowledge.

It is to be had only at Mr. Radford's Toyſhop, at the Rose and Crown againſt St. Clement's Church-yard in the Strand, at 2 s. 6d. a Bottle, with Directions.
